

A black and white micrograph showing a large, irregularly shaped, light-colored mineral specimen against a dark background. The specimen has a rough, crystalline texture. A small, dark, elongated inclusion is visible near the center of the specimen. A label with the text "187-1 187-1-106_B" is placed over the specimen. Below the specimen is a circular scale bar. The background is dark and contains numerous small, bright, circular spots, likely dust or other mineral grains.
